

Tenure track or Clinical Term Track Assistant or Associate Professor in Anatomic Pathology

Faculty - Tenure-Eligible or Term Clinical Track

The Department of Veterinary Pathology, College of Veterinary Medicine at Iowa State University is seeking qualified applicants for a 12-month, full-time, tenured or tenure-track, or renewable clinical term-track position in veterinary anatomic pathology. Applications are being accepted at the Assistant or Associate Professor level. The department has key responsibilities in diagnostic pathology services, research and teaching, and provides diagnostic services to the Lloyd Veterinary Medical Center and practicing veterinarians across the country. Additional information about the department can be found at <http://vetmed.iastate.edu/vpath>.

At the rank of Tenured or Tenure-track Assistant or Associate Professor, the position will consist of 30-40% diagnostic anatomic pathology services, 20-30% collaborative or independent research, 20-30% teaching professional DVM and graduate student courses, and 5% institutional service. At the rank of Clinical Term Assistant or Associate Professor, the position will consist of 75-85% diagnostic anatomic pathology service including teaching professional DVM students, graduate students and residents; 10-20% scholarship, and 5% institutional service. Current departmental research interests include animal models of human disease, infectious disease, respiratory disease, host-pathogen interactions, parasitic diseases, neurodegenerative disease, oncology, and immunopathology.

The successful candidate will be expected to develop an active scholarly program. For appointment in the tenure-track, the selected individual should have a strong record of training and experience in diagnostic pathology, experience with teaching, hypothesis driven research, and prior grant writing experience. Collaborative or independent research resulting in peer-reviewed publications and external grant submissions is expected. For an individual in the term-track, scholarship could include advancing the discipline of anatomic pathology through creation and dissemination of new knowledge, or participating in collaborative research.

Candidates must have a DVM or equivalent degree and completion of requirements to sit Phase II of the ACVP examination or the ECVP examination in Anatomic Pathology.

In addition, positions at the following ranks will also require.

- Assistant Professor: Graduate degree in a discipline relevant to pathology as well as a record of training and experience in diagnostic anatomic pathology, teaching and research.
- Associate Professor: ACVP or ECVP board certification in Anatomic Pathology, graduate degree in a discipline relevant to pathology, documented record of productive scholarship, a solid publication record in peer-reviewed journals and a record of successful didactic teaching and pathology resident training.
- Clinical Term Assistant Professor: ACVP or ECVP board certification in Anatomic Pathology
- Clinical Term Associate Professor: ACVP or ECVP board certification in Anatomic Pathology, a record of successful didactic teaching and training pathology residents and at least 5 years of experience in diagnostic anatomic pathology.

Preferred education and experience include; PhD or equivalent degree in a discipline relevant to pathology, ACVP or ECVP board certification in Anatomic Pathology, DVM or equivalent degree from an AVMA accredited university, experience in diagnostic pathology, experience in collaborative or independent research and teaching experience.

For full position announcement and to apply go to: <https://www.iastatejobs.com/postings/41465>  
Applicants should submit a curriculum vitae, a letter of application/cover letter and a statement of career goals including teaching, diagnostic and scholarly interests. Additionally, applicants should provide a list of three professional referees. Applications will be guaranteed consideration through June 30, 2019.
