## Toxicologic Pathologist (2012321)

### THE POSITION

Are you looking to apply your scientific expertise and enhance your experience as Toxicologic Pathologist? Are you agile, self-motivated and responsible with a pro-active mindset? Then join our Pathology group, which is part of the department of Nonclinical Drug Safety of Boehringer Ingelheim's largest R&D campus for Human Pharma in Biberach an der Riss, Germany. Biberach offers excellent quality of life and is embedded in a beautiful countryside between Stuttgart, Munich and the Lake of Constance / the Alps.

### Tasks & Responsibilities

- In Your new role, you act as study pathologist on early exploratory and regulatory toxicity studies to include input on study design, contribution of gross and microscopic evaluation and integrated reporting.
- You perform peer reviews of in-house studies and studies performed at CROs.
- Furthermore, you provide technical guidance to pathology laboratory personnel in compliance with GLP, company safety and regulatory guidelines.
- With your scientific expertise, you develop new technologies and strategies, which help to elucidate mechanisms of toxicity.
- You contribute to interdisciplinary developmental projects and to phase-transition and regulatory submission documents.
- You also establish and maintain a network with other Boehringer Ingelheim sites, academia and industry in order to achieve optimum investigative strategies and scientific results within the preclinical development process.

### Requirements

- Doctor of Veterinary Medicine, a PhD is a plus
- Board certified ECVP or ACVP or equivalent
- Several years of work experience in Toxicologic Pathology in a GLP environment is preferred
- Scientific and technical experience in special pathology techniques (e.g. immunohistochemistry, electron microscopy) is a plus
- Strong scientific interest and analytical capacity, target- and strategy-oriented work attitude
- Open-minded personality and strong team player
- Excellent communication skills and fluency in English, written and verbally
