

Anatomic Pathology Resident Position

Project title: Combined MVM and residency in anatomic veterinary pathology

Principal supervisor: Dr Kerstin Baiker

Secondary supervisor: Dr Ana Ortiz

Background: In 2006, the School of Veterinary Medicine and Science (SVMS) at the University of Nottingham was the first, purpose-built veterinary school in the UK for over 50 years. The Vet School at Nottingham is committed to making significant contributions to both veterinary research and veterinary education, producing graduates that contribute to the broad pathways taken by veterinary professionals.

Veterinary pathology at Nottingham provides a diagnostic service on a wide range of animals, but mainly companion animals. The unit is involved in clinical teaching of year 5 veterinary students that rotate through the unit. Three senior pathologists, ECVP or ACVP boarded, oversee surgical and post-mortem case submissions.

Position description: Applications are invited from veterinary graduates to undertake a three-year training programme (residency) in Veterinary Anatomic Pathology. The successful candidate will focus on companion animal pathology with some exposure to avian and farm animal anatomic pathology and clinical pathology.

The trainee will be registered for a Masters of Veterinary Medicine degree at the School of Veterinary Medicine and Science and will undertake a research project on some aspect of Veterinary Anatomic Pathology. The training programme encompasses small group teaching, seminars, research and diagnostic duties.

Further information and Application: Graduates with at least one year's experience, preferably with some exposure to Veterinary Anatomic Pathology, are invited to apply for this combined Scholarship and Master's degree. Applicants must have attended an EAEVE approved Veterinary School and be a Member of the Royal College of Veterinary Surgeons, or hold a veterinary degree qualifying them for membership.

There is an annual tax-free stipend of £21,000 that is continued for three years subject to satisfactory annual assessment. Fees are paid for UK applicants with a currently unclear situation for EU applicants due to potential international fees. This will be clarified before the interview date.

The University is keen to ensure all of its students are prepared to succeed in their programmes of study. Applicants whose first language is not English must achieve an

appropriate level in an approved test in English before they can register (IELTS \geq 7.5 with no less than 7.0 in each element).

Informal enquiries can be addressed to: kerstin.baiker@nottingham.ac.uk

More information: <https://www.nottingham.ac.uk/vet/study-with-us/postgraduate-research/studentships.aspx>

Candidates should apply online <http://www.nottingham.ac.uk/pgstudy/how-to-apply/apply-online.aspx> and include a CV.

When completing the online application form, please select the School of Veterinary Medicine and Science, then *Master of Veterinary Medicine* (MVM) and, once submitted, send your student ID number to SV-PG-VET@exmail.nottingham.ac.uk.

Any queries regarding the application process should be addressed to the Postgraduate Admissions Office (email: SS-PGR-QMC@nottingham.ac.uk)

Deadline for applications: 11th of December 2020

Interview date: 5th of January 2021

Start date: 1st of February 2021
