

Veterinary Anatomic Pathologist (Teaching Fellow) x2

Permanent position

Core salary up to £60,905

This post attracts an additional 10% salary uplift for MRCVS, plus a further 10% uplift for anatomic pathology board certification

Closing Date: Thursday September 9th, 2021

Interview date: Monday September 20th, 2021

We are seeking two motivated and enthusiastic veterinary anatomic pathologists to join our team of board-certified veterinary anatomic and clinical pathologists, based in our £11m purpose-built, state-of-the-art [Veterinary Pathology Centre](#) in Guildford, Surrey.

In addition to being a Member or Fellow of the Royal College of Veterinary Surgeons (RCVS; or holding a degree that is registrable with the RCVS), you will be board-certified in veterinary anatomic pathology (RCPath, ECVP, ACVP), and you will have a particular interest in undergraduate and postgraduate teaching. You will have excellent communication skills and an appetite for innovative teaching and diagnostics, and you will be able to work well in a team.

This post will combine teaching and diagnostic service. You will be tasked with further developing the anatomic pathology component of the School of Veterinary Medicine's veterinary curriculum, and with covering the Veterinary Pathology Centre's diagnostic service caseload. You will also contribute to the training of pathology residents.

However, in addition to providing clinical diagnostic pathology support to the veterinary community, you will also have the opportunity to work with experts from local world class veterinary practices, institutes, and government agencies, through our many collaborative partnerships.

This is an exciting opportunity for a highly motivated individual to play a leading role in helping to shape the University's veterinary education programmes and to further develop

our veterinary diagnostic pathology service. You will be supported by a team of veterinarians, board-certified pathologists, scientists, and skilled technical staff.

In return, we offer a generous pension scheme and annual leave entitlement, along with fantastic career developmental opportunities. In addition, you will be supported in gaining the academic Postgraduate Certificate in Learning and Teaching.

For informal enquiries please contact Dr Nicola Parry (n.parry@surrey.ac.uk), Head of Pathology.
