Veterinary Pathologist/Pathology Services Manager

- Cutting edge digital technology
- Consult with your colleagues across IDEXX globally
- Lead a team of veterinary professionals

7,000 people, one global focus - enhancing the health and well-being of pets, people, and livestock.

We are passionate about what we do at IDEXX – and why wouldn't we be? When you're working with the very latest technological advancements to raise the standard of health care for pets and keep our livestock population around the globe healthy and free of disease, it's no wonder that what we do each day is more than just a job. There's an energy across IDEXX that is unmistakable – where caring and committed people come together to make things better.

Due to our continuing growth, we have identified the need for a leader to support our Professional Services Team. To be a success in this role you will be an experienced Veterinary Pathologist with specialist qualifications in anatomic and/or clinical pathology.

Most of your day will be spent delivering an efficient, effective, comprehensive and timely veterinary pathology service to our customers by providing diagnostic anatomic/clinical pathology evaluations, interpretations and follow-up consultation. You will be using the very latest high-resolution digital pathology solutions to enable you to work efficiently and effectively and to collaborate easily with your IDEXX colleagues throughout the world.

In addition, this professional leadership role has administrative and management responsibilities, including:

- Daily management of the resources of the Pathology Services Team (PST) in Australia, to deliver exceptional turn-around times to our customers
- Supporting professional development of our pathologists and managing performance
- Roster management, leave approvals and approval of CPD requests
- Ensuring our pathologists promote the growth of IDEXX by actively engaging and relating with clients on a professional basis.

Our professional team environment provides opportunities for further Continuing Professional Development.

Essential to this position is a veterinary degree suitable for Australian registration, previous experience in diagnostic veterinary pathology and a demonstrated commitment to high quality service. Board certification by the ACVP or Fellowship of the ANZCVSc is preferred, although other highly qualified applicants will be considered.

If you are interested in joining a global market leader, please apply at www.idexx.com.
