

# ECVP/ESVP Summer School in Veterinary Pathology

## Marie Curie Training Courses

### Summer School 2008 – Respiratory Case 7

|   |           |
|---|-----------|
| <b>Description:</b>   | <b>14</b> |
| Generalized perivascular infiltrate   | 1         |
| Histiocytic and Eosinophilic exudate in alveolar wall and parenchyma  | 1         |
| Endothelial cell hypertrophy in arterioles  | 1         |
| Intranuclear inclusions in endothelial cells  | 3         |
| Interstitial emphysema and interlobular edema   | 2         |
| Adult and microfilarial forms of lungworms with granulomatous inflammation  | 3         |
| Organization and Clarity:<br>Description in context of microscopic anatomy. Use of appropriate terminology to describe inclusions and helminths | 3         |
| <b>2 Morphologic Diagnoses:</b>   |           |
| Segmental lympho-plasmacytic pulmonary vasculitis with endothelial cell intranuclear inclusions   | 2         |
| Multifocal verminous interstitial pneumonia   | 2         |
