

# Veterinary Pathologist – Anatomic Pathology | MyLav France | 100% Remote

## About MyLav

MyLav is a European veterinary diagnostic laboratory currently expanding into the French market. Driven by science and innovation, our international team is dedicated to advancing animal health by delivering high-quality, reliable diagnostic services to veterinary practitioners across France.  [www.mylav.net/fr](http://www.mylav.net/fr)

## The position

As part of our continued growth in France, we are seeking a **Veterinary Anatomic Pathologist** to join and strengthen our diagnostic team. This opportunity is open to **experienced** veterinary pathologists. Above all, we value strong expertise, scientific rigor, meticulous attention to detail, and a genuine passion for veterinary pathology.

The position is **100% remote**, with full integration into a dynamic, collaborative, and supportive international team.

The form of collaboration (employment contract, consultancy, or another arrangement) is flexible and will be defined according to your profile and expectations.

## Your responsibilities

- Analysis and interpretation of histopathological, histochemical and immunohistochemical samples
- Writing clear and rigorous diagnostic reports for French veterinary practitioners
- Close collaboration with MyLav's scientific team
- Participation in continuing education programmes and scientific exchanges (journal clubs, seminars)
- Contribution to the development and quality of the pathology service in France

## Your profile

- Veterinary degree with a specialisation in veterinary anatomic pathology
- ECVF Diplomate (European College of Veterinary Pathologists) or eligible — residents in progress are also welcome
- **Fluent English is recommended**
- **Fluent French is request (report writing and communication with French clients)**
- Autonomy, thoroughness and strong organisational skills
- Ability to work within an international team and in a remote environment

## What we offer

- A flexible collaboration, tailored to your situation (terms are open to discussion)

- A 100% remote position
- Integration within a passionate and growing international team
- Real opportunities for professional and scientific development
- Access to a varied and stimulating caseload, covering general veterinary medicine and referral hospitals

### **Application**
